Ref. KM-284/23

Pursuant to Article 145 (paragraph 2) of the Constitution of the Republic of Kosovo, taking into account articles 8, 9, 10 and 11 of the Law No. 06/L – 113 on the Organization and Functioning of State Administration of the Independent Agencies, (Official Gazette, No. 7/01 March 2019), based on Article 8 (paragraph 1.4) article 15, Annex 11 of the Regulation (GRK) – No. 02/2021 on the Areas of the Administrative Responsibilities of the Prime Minister’s Office and the Ministries (30.03.2021), and Article 20 (paragraphs 1,4 and 5) of the Law No. 03/L – 042 of the Plant Protection Products (Official Gazette No. 44, date 22.12.2008) as well as based on recommendation of the Commission on assessment and authorization of the Plant Protection Products, with Ref. 04-382/23, of the date 31.07.2023, Minister of the Ministry of Agriculture, Forestry and Rural Development, issues the following:

DECISION

On the Inclusion in the register and permitting the authorization to use plant protection product

1. The import, placement in the market and the authorization to use plant protection product – **Nicorn 040 SC** of producer **“Pestila Spólka z ograniczona odpowiedzialnošcia”**, Poland from its representative **“Agronomi Group” SH.P.K, Suhareka** shall be permitted.

2. TYPE OF PRODUCT: Herbicide

3. CONTENT OF ACTIVE SUBSTANCE: Nicosulfuron.....40gr/kg

4. USE:

Nicorn 040 SC is a systemic herbicide that controls annual and perennial broadleaf and stenophyllous and broad leafed in corn crop. Application time: apply at the 2-7 leaf stage of corn (BBCH 12-17), when the weeds are in the early growth stage (2-4 leaves). Maximum/recommended single application rate: 1.0L/ha. Maximum number of annual applications: 1 time. Recommended quantity of water: 200-300 L/ha. Recommended spray: medium droplet size. Sensitive weeds, barnyard grass *Echinochloa crus-galli*, European field pansy (*Viola arvensis*), goose grass (*Galium aparine*) fallopian strawberry (*Polygonum consolvulus*).

5. PACKING QUANTITY FOR IMPORT:

0.25L, 0.5L, 1L, 5L, 10L, 20L, 220L.

6. REMARK:

Before applying the product, it is necessary to notify all interested parties who may be exposed to the evaporation of working fluids and who require such notification. Do not eat, drink or smoke when using this product. Use protective gloves, eye and face protection, and protective clothing that protects against the harmful effects of the plant protection product during preparation of the working fluid, as well as during application and access to the treated area. Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water. Do not contaminate water with the product or its container. Do not clean application equipment near surface water. Avoid contamination through drain from farms and roads. In order to protect aquatic organisms, respect a rough buffer zone of 20m on the surface of water bodies. To protect non – target plants respect a 5m raw buffer zone on non-agricultural land. The safety interval for each use between application and approach by people or animals: do not enter until the liquid treatment has completely dried on the surface of the plants. Keep away from children. Store the plant protection product: in places or facilities where appropriate measures are observed to ensure the protection of the environment and prevent approach by third parties, in original containers in order to prevent contact with food, drink or animal feed, store at temperature between 20°C and 30°C. Do not reuse empty plant protection product packaging for other applications. Dispose of the unused product through entities authorized to collect hazardous waste. Return the empty product container to the plant product retailer or treat it as municipal solid water. If any doubt about package management, seek advice from your plant protection product.

7. KARENCA:

There is no.

8. PROPOSAL OF CLASSIFICATION:

GHS09- warning (cat 1)-environmental hazard

9. PLACE OF SELLING: In the whole territory of the Republic of Kosovo.

10. The plant protection product authorized by point 1 of this decision is allowed to be imported into the Republic of Kosovo, until the deadline as defined in the registration certificate, based on the EU Pesticides/Active Substances Database, while circulation and its use is allowed according to article 26 paragraph 3 of Law No. 03/L-042 of Plant Protection Products.

11. This decision shall enter into force on the day of signature.

The Decision shall be sent to the following:

- *Commission on assessment and authorization of plant protection products;*
- *Department of Agriculture Policy and Trade;*
- *Phyosanitary boundary service;*
- *Phyosanitary inspectors VFA;*
- *Importers of plant protection products, and*
- *Archive.*
